## REDSTONE AMERICAN GRILL

Project Data  
Locations: 5 National  
Square Feet: Varies

Wilkus Architects has worked with Redstone American Grill on several projects ranging from remodels and additions of private dining rooms to new, freestanding restaurants. Wilkus Architects provides full scope Architectural services ranging from site selection investigations, predesign, design development, construction documents, and construction administration. Wilkus Architects works very closely with the Redstone design team to develop a unique identity for each store by creating early design sketches, thoughtful selections of materials, walk-through models, and high-quality 3D renderings.
